**DEFINITE PURPOSE PRODUCTS**

This table was specifically designed for a Tecan Freedom 200.

Cut out in table top for robot arm lowering plate into centrifuge, located on bottom left pull out shelf.

This custom table / shelving array is used for general purpose storage of bottles.

It also provides ample table top area for scientists.

**PSE LAB WORKS  
DEFINITE PURPOSE PRODUCTS**

Another Tecan Table designed with centrifuge in lower left bay.

Table also equipped with double articulating arm for flat screen monitor.

This table is specifically designed for a FLIPR by Molecular Devices.

The tables' rigid, rugged design provides the necessary stability and vibration dampening for the laser.
